

## Things we should do at pre school

We should wash our hands with soap and water	
We should use tissues to catch our coughs and sneezes	
We should say goodbye to our grown up at the front door	
We should spend lots of time outside	
We should play with toys that we can keep clean	
We should eat snack when there is room Only five children at the table	
We will meet new Pre-School Practitioners	
We will meet new friends	
We should have lots of fun
